

FCUB ERA

Seminars of the FP7 FCUB-ERA project and Molecular Food Research Section of the Serbian Chemical Society

March 2013

18 March 2013, 12:00-14:00 (Lecture Hall - Sala za sednice)

Vladimir Beskoski, "Characterization of environmental bacterial isolates using maldi-tof-ms – experience from the VTT"

STSM to VTT, Finland

25 March 2013, 12:00-14:00 (Lecture Hall - Sala za sednice)

Jelena Vesic, Development and validation of an MRM method of protein quantification by mass spectrometry

STSM to INRA, France

29-30 March 2013, 12:00-16:00 (Lecture Hall - Sala za sednice)

Ljubica Vojcic, RWTH, Germany

"Cloning in gram positive bacteria and yeasts – practical aspects"
"Directed evolution of proteins: methods and success stories"

15 April 2013, 12:00-14:00 (Lecture Hall - Sala za sednice)

Jelena Acimovic, FCUB, "Purification and characterization of mutants of cellulase, created after conducting the experiment of directed evolution and generation of mutant library"

STSM to RWTH, Germany

22 April 2013, 12:00-14:00 (Lecture Hall - Sala za sednice)

Jasna Nikolic, FCUB, Enzyme behavior in model systems mimicking cell walls

STSM to INRA, France

29 April 2013, 12:00-14:00 (Lecture Hall - Sala za sednice)

Danijela Apostolovic, FCUB, Allergy to red meat – a new form of food allergy

STSM to KI, Sweden
