НАСТАВНО-НАУЧНОМ ВЕЋУ  
УНИВЕРЗИТЕТА У БЕОГРАДУ-ХЕМИЈСКОГ ФАКУЛТЕТА

На седници Наставно-научног већа Хемијског факултета Универзитета у Београду одржаној 13.3.2025. године, изабрани смо у Комисију за писање реферата за ангажовање Ђорђије Петкоског, предавача и старијег сарадника Вортон школе Универзитета Пенсилваније (Wharton School, University of Pennsylvania), као гостујућег професора (Visiting Professor) на Универзитету у Београду-Хемијском факултету.

На основу документације, а у сагласности са Правилником о условима и начину ангажовања гостујућег професора на Универзитету у Београду („Гласник Универзитета у Београду“ бр. 135/07, 178/14 и 241/22), Статутом Универзитета у Београду (члан 145), и Статутом Хемијског факултета (члан 124) подносимо Наставно-научном већу Хемијског факултета Универзитета у Београду следећи:

## РЕФЕРАТ

### Основни подаци

др Ђорђија Петкоски је рођен 11. марта 1949. године у Глобочици, данас Република Северна Македонија. Основне и магистарске студије је завршио на Електротехничком факултету Универзитета у Београду (1972, односно 1974. године). Свој први докторат је стекао из области комплексних система („Примена е-методе за одређивања линеарног регулатора са структурним ограничењима“) на Електротехничком факултету Универзитета у Београду 1978. године, а други из области стратешког управљања предузећима („Управљање системима у подручју економије у условима неизвесности“) на Економском факултету Универзитета у Загребу 1991. године. Наредне године је на Кенедијевој школи државног управљања Универзитета Харвард (Kennedy School of Government, Harvard University) завршио и мастер студије јавне администрације-економије (Master in Public Administration-Economies in Transition/Agro-Business/Environment). Такође је завршио специјализацију из извршног развоја и корпоративних финансија (Executive Development/Corporate Finance) на Пословној школи Универзитета Харвард (Harvard University Business School).

У време док је радио на универзитетима у Србији, био је истраживач приправник на

Електротехничком факултету у Београду (1972-1974), а од 1974. до 1990. године је на Факултету техничких наука Универзитета у Новом Саду био у наставним звањима асистента (1974-1978), доцента (1978-1981), ванредног професора (1981-1984) и редовног професора (1984-1990). У том је периоду (школске 1979/1980 године) био гостујући истраживач у Лабораторији за системе одлучивања и информација (Laboratory for Information and Decision Systems) Масачусетског института за технологију (Massachusetts Institute of Technology), а као Фулбрајтов стипендиста је био гостујући истраживач на Универзитету Харвард (Harvard University) школске 1990/1991. Од 1992. до 2011. године радио је у Светској банци (World Bank) на различитим високим позицијама. Господин Петкоски је данас предавач и старији сарадник Вортон школи Универзитета Пенсилваније и оснивач Глобалне конкурентости, развоја и вођства (Global CDL - Competitiveness, Development and Leadership). Активни је консултант Светске банке, Међународне организације рада (International Labour Organization, ILO), Организације америчких држава, националних влада и других институција.

### **Објављени научни радови и научна саопштења на међународним скуповима**

Потпунији списак књига, поглавља у књигама, научних радова и пројеката професора Петкоског дат је у прилогу овог Реферата. Непотпун приказ у бази података Research Gate говори да је проф. др Ђорђија Петкоски објавио 40 библиографских јединица које су цитиране 461 пут, уз h-index 8. Треба при томе имати у виду да је г. Петкоски највећи део своје каријере провео у неакадемској средини, бавећи се друштвеним наукама, а да су каснији послодавци, попут Универзитета у Пенсилванији, пре свега имали у виду и ценили његову целокупну биографију и знања, а не суве и искључиве научне параметре.

## Међународна научна репутација

Господин Петкоски је током готово двадесет година свог рада у Светској банци, од 1992. до 2011. године, био на различитим високим позицијама, укључујући и место шефа Програма за пословање, конкурентност и развој. Током свог мандата у овој организацији, бавио се највише корпоративним и стратешким управљањем, иновацијама, питањима конкурентности и одрживог развоја на глобалном, националном и корпоративном нивоу. За време мандата у Светској банци, стварао је и руководио бројним глобалним пројектима, а био је један од оснивача тима који је водио програме Светске банке за реструктурирање предузећа у источној Европи, бившем Совјетском Савезу, Африци и Кини, као и пројекте реформисања државних предузећа и унапређења функционалности извршних власти у областима корпоративног управљања за привредне руководиоце, владине званичнике земаља, али и чланове академске заједнице земаља бившег Совјетског Савеза, Источне Европе и Африке. Бавио се и програмима који су за циљ имали развој пољопривреде, инклузивне пословне моделе у тржиштима у развоју, као и борбу против корупције у земљама Блиског Истока и Северне Африке. Допrineо је осмишљавању и спровођењу програма лидерства у развоју одрживог развоја за више менаџере Светске банке и Међународне финансијске корпорације (International Finance Corporation, IFC), перспективне пословне руководиоце и владине званичнике, који је спровео Универзитет Кембриџ (Cambridge University). Такође је радио на дизајну извршног програма Масачусетског института за технологију о одрживом развоју за руководиоце мултинационалних компанија и владине званичнике земаља у развоју.

О његовој међународној репутацији можда најбоље говори чињеница да је господин Петкоски данас предавач и старији сарадник на Вортон школи Универзитета Пенсилваније као и директор једног од центара (Зиклин центар за истраживања пословне етике Вортон школе Универзитета Пенсилванија, Carol and Lawrence Zicklin Center for Business Ethics Research, the Wharton School, University of Pennsylvania), у овој школи. Вортон школа је рангирана као једна од две најбоље светске пословне школе на нивоу мастер програма, најчешће врсте програма ове школе у 2024. години, у рангирању US News & World Report-a (<https://www.usnews.com/best-graduate-schools/top-business-schools/university-of-pennsylvania-01194>) (дели прво место са Универзитетом Стенфорд), као најбоља у свету у рангирању Фајненшл Тајмса (Financial Times)

(<https://rankings.ft.com/schools/200/university-of-pennsylvania-wharton/programme-portfolio>), као седма у САД у рангирању Блумберга (Bloomberg) (<https://www.bloomberg.com/business-schools/pennsylvania-wharton/>), друга на свету у рангирању QS University Rankings (<https://www.topuniversities.com/mba-rankings/global>). Ђорђија Петкоски је и оснивач Глобалне конкурентности, развоја и вођства (Global CDL- Competitiveness, Development and Leadership), активни консултант Светске банке, Међународне организације рада (International Labour Organization, ILO), Организације америчких држава, националних влада и других институција. Радио је, као консултант, са преко 100 мултинационалних компанија у широком спектру индустрија, укључујући IT и индустрије високе технологије, индустрије производње и прераде пољопривредних производа, индустрије хране и пића, лепоте и хигијене, компаније из области енергетике и рударства. Привредни ентитети у којима је радио као консултант укључују и SAP, Nestle, Mars Co, PepsiCo, L'Oreal, Firmenich, Olson Zaltman, CEMEX, Siemens, Britannia, UNICA, DSF, Tetra Pac итд. Највећи део примењених истраживања др Ђорђије Петкоског јесте посвећен одрживом развоју, односно ESG концепту, а у новије време се бави и укључивањем одговорне примене вештачке интелигенције у корпоративне стратегије и организационе промене које подстичу одрживи развој.

Осим ангажмана на Универзитет Пенсилваније, др Петкоски је члан Међународног саветодавног одбора Института Етос (Instituto Ethos), Бразил, Саветодавног панела за одржив развој (Sustainability Advisory Panel) компаније CEMEX, одбора директора Young American Business Trust-а, извршни директор Светског форума за етику у пословању (World Forum for Ethics in Business), члан Глобалне компактне радне групе о питањима борбе против корупције Уједињених нација (UN Global Compact Working Group on Anti Corruption) и Радне групе о јавно-приватном партнерству Програма за развој Уједињених Нација (UNDP Working Group on Public Private Partnership).

### **Резултати у развоју одговарајуће образовно-научне области**

Ђорђија Петкоски је постао глобално познат кроз свој рад на оснивању Глобалног форума корпоративног управљања (Global Corporate Governance Forum), донаторског повереничког фонда који се налази у оквиру Међународне финансијске корпорације, а који су 1999. године основали Светска банка и Организација за економску сарадњу и развој (OECD). Овај је форум, захваљујући у битној мери и др

Ђорђевић Петкоском, постао водећа платформа за изградњу знања и капацитета посвећених реформи корпоративног управљања на тржиштима земаља у развоју. Петкоски је водио и стварање Пословне алијансе за глобалну алијансу за побољшану исхрану (Business Alliance for the Global Alliance for Improved Nutrition, GAIN), вишедонаторске иницијативе уз подршку Гејтс фондације (Bill & Melinda Gates Foundation), Светске банке и многих водећих мултинационалних компанија. Петкоски је од 2014. ко-председавајући иницијативе Идеје за акцију (I4A) Светске банке и Зиклин центра за истраживања пословне етике Вортон школе Универзитета Пенсилванија, платформе која талентованим младим људима широм света пружа прилику да преузму активну улогу у обликовању глобалних развојних циљева, са тежиштем на финансирање развојних пројеката и ангажовање корпоративног сектора у њима. У 2020. години I4A иницијатива је примила 4.100 пријава, са око 10.000 чланова тимова из 142 земље и територије. Од 2015. године регистровано је више од 7.000 тимова, са преко 21.000 чланова. Од 2017. је ко-водител Иницијативе SGDs&Her, платформе за подршку женском предузетништву кроз стварање микро-и малих предузећа, а коју су основали Светска банка, Програм уједињених нација за развој (United Nations Development Programme, UNDP), Организација Уједињених нација за права жена (UN Women) и Зиклин Центар. У време пандемије корона вируса, покренуо је 2020. програм „Предузетнички одговор на ковид 19-Иницијатива за стварање капацитета за борбу против ковида 19 у Африци: Идеје и иновација младих предузетника“ („Entrepreneurial Response to COVID-19 Initiative – Building Capacity to Combat COVID-19 in Africa: Ideas and Innovations from Young Entrepreneurs“).

### **Предлог Комисије**

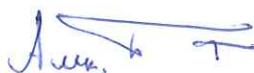

На основу све представљене документације Комисија констатује да је др Ђорђевић Петкоски предавач и старији сарадник Вортон школе Универзитета Пенсилваније наставник (у смислу члана 73, став 1, Закона о високом образовању) из друге самосталне високошколске установе ван територије Републике (у складу са чланом 2 Правилника о условима и начину ангажовања гостујућег професора на Универзитету у Београду) као и да испуњава све услове овог Правилника („Гласник Универзитета у Београду“ бр. 135/07, 178/14), Статута Универзитета у Београду (члан 145), и Статута Хемијског факултета (члан 124). Имајући у виду чињеницу да је по тренутним релевантним класификацијама Вортон школа Универзитета у Пенсилванији водећа,

ако не и најбоља светска пословна школа, закључак Комисије се заправо тиче укључивања у рад са студентима Универзитета у Београду наставника светске образовне институције која је најбоља у својој области. Комисија поготово констатује да са једне стране ово ангажовање, у складу са договором који постоји са др Петкоским, не захтева никаква материјална средства факултета, а са друге стране пружа могућност укључивања др Петкоског у рад не само Хемијског, већ и других факултета и преношења знања студентима целог Универзитета (у складу са Правилником о допуни правилника о условима и начину ангажовања гостујућег професора на Универзитету у Београду, „Гласник Универзитета у Београду“ бр. 241/22), која нису искључиво академска, већ се тичу и реалног сектора, у областима које су савремене, попут одрживог развоја и вештачке интелигенције.

Имајући све написано у виду, Комисија са задовољством предлаже ангажовање др Ђорђију Петкоског, предавача и старијег сарадника Вортон школе Универзитета Пенсилванија (Wharton School, University of Pennsylvania), као гостујућег професора (Visiting Professor) на Универзитету у Београду-Хемијском факултету.

У Београду, 13.4.2025.

Комисија:

Др Александар Поповић, редовни професор  
Универзитет у Београду-Хемијски факултет

Др Горан Роглић, редовни професор  
Универзитет у Београду-Хемијски факултет

Др Бранимир Јованчићевић, редовни професор  
Универзитет у Београду-Хемијски факултет

Др Драган Повреновић, редовни професор  
Универзитет у Београду-Технолошко-металуршки факултет

Др Владимир Поповић, редовни професор  
Универзитет у Београду-Машински факултет
